CONTENTS VOLUMES 127/128, 1993

REVERSIBLE PROTEIN PHOSPHORYLATION IN CELL REGULATION

D. Graves and L. Graves: Dedication to Drs. E.G. Krebs and E.H. Fischer 1

R.L. Khandelwal and J.H. Wang: Preface 5

PROTEIN KINASES

C.-Y.F. Huang, C.-J. Yuan, N.B. Livanova and D.J. Graves: Expression, purification, characterization, and deletion mutations of phosphorylase kinase γ subunit: identification of an inhibitory domain in the γ subunit 7

L.M.G. Heilmeyer, Jr., A.M. Gerschinski, H.E. Meyer and H.P. Jennissen: Interaction sites on phosphorylase kinase for calmodulin 19

D.A. Malencik, Z. Zhao and S.R. Anderson: Preparation and functional characterization of a catalytically active fragment of phosphorylase kinase 31

D.K. Blumenthal: Development and characterization of fluorescently-labeled myosin light chain kinase calmodulin-binding domain peptides 45

J.A. Smith, S.H. Francis and J.D. Corbin: Autophosphorylation: a salient feature of protein kinases 51

R. Feil, M. Bigl, P. Ruth and F. Hofmann: Expression of cGMP-dependent protein kinase in *Escherichia coli* 71

M.C. Faux, K.I. Mitchelhill, F. Katsis, R.E.H. Wettenhall and B.E. Kemp: Chicken smooth muscle myosin light chain kinase is acetylated on its NH_2-terminal methionine 81

T.R. Soderling: Calcium/calmodulin-dependent protein kinase II: role in learning and memory 93

H.-C. Cheng, I. Matsuura and J.H. Wang: *In vitro* substrate specificity of protein tyrosine kinases 103

PROTEIN PHOSPHATASES

Z. Zhang, S. Zhao, S. Deans-Zirattu, G. Bai and E.Y.C. Lee: Mutagenesis of the catalytic subunit of rabbit muscle protein phosphatase-1 113

D.L. Brautigan and F.M. Pinault: Serine phosphorylation of protein tyrosine phosphatase (PTP1B) in HeLa cells in response to analogues of cAMP or diacylglycerol plus okadaic acid 121

S.M. Brady-Kalnay and N.K. Tonks: Purification and characterization of the human protein tyrosine phosphatase, PTPμ, from a baculovirus expression system 131

D.E. Cool and J.J. Blum: Protein tyrosine phosphatase activity in *Leishmania donovani* 143

PROTEIN PHOSPHORYLATION IN SIGNAL TRANSDUCTION

I.A. Leighton, P. Curmi, D.G. Campbell, P. Cohen and A. Sobel: The phosphorylation of stathmin by MAP kinase 151

S.L. Pelech, D.L. Charest, G.P. Mordret, Y. Loong Siow, C. Palaty, D. Campbell, L. Charlton, M. Samiei and J.S. Sanghera: Networking with mitogen-activated protein kinases 157

J. van Lint, J. van Damme, A. Billiau, W. Merlevede and J.R. Vandenheede: Interleukin-8 activates microtubule-associated protein 2 kinase (ERK1) in human neutrophils 171

J.L. Meinkoth, A.S. Alberts, W. Went, D. Fantozzi, S.S. Taylor, M. Hagiwara, M. Montminy and J.R. Feramisco: Signal transduction through the cAMP-dependent protein kinase 179

D.W. Litchfield and B. Lüscher: Casein kinase II in signal transduction and cell cycle regulation 187

N.G. Ahn: The MAP kinase cascade. Discovery of a new signal transduction pathway 201

S. Pugazhenthi and R.L. Khandelwal: Does the insulin-mimetic action of vanadate involve insulin receptor kinase? 211

CELLULAR REGULATION BY REVERSIBLE PHOSPHORYLATION

R.S. Moussavi, C.A. Kelley and R.S. Adelstein: Phosphorylation of vertebrate nonmuscle and smooth muscle myosin heavy chains and light chains 219

J.T. Stull, M.G. Tansey, D.-C. Tang, R.A. Word and K.E. Kamm: Phosphorylation of myosin light chain kinase: a cellular mechanism for Ca^{2+} desensitization 229

J. Beltman, W.K. Sonnenburg and J.A. Beavo: The role of protein phosphorylation in the regulation of cyclic nucleotide phosphodiesterases 239

C.R. Prostko, M.A. Brostrom and C.O. Brostrom: Reversible phosphorylation of eukaryotic initiation factor 2α in response to endoplasmic reticular signaling 255

J.L. Maller: On the importance of protein phosphorylation in cell cycle control 267

S. Shaltiel, I. Schvartz, B. Korc-Grodzicki and T. Kreizman: Evidence for an *extra*-cellular function for protein kinase A 283

A.J. Godwin, L.M. Green, M.P. Walsh, J.R. McDonald, D.A. Walsh and W.H. Fletcher: *In situ* regulation of cell-cell communication by the cAMP-dependent protein kinase and protein kinase C 293

V.M. Coghlan, S.E. Bergeson, L. Langeberg, G. Nilaver and J.D. Scott: *A-K*inase *A*nchoring *P*roteins: a key to selective activation of cAMP-responsive events? 309
